Notice on scrap steel produced by foreign flag ships during repair
(2020) No. 684

According to the Law of the People's Republic of China on the Prevention and Control of Environmental Pollution by Solid Waste and other laws and regulations, the scrap steel produced by foreign flag ships repaired in China shall be supervised as follows

1. Scraps generated by foreign flag ships repaired in China shall be allowed to be stored, transferred, utilized and disposed within the territory under the conditions of compliance with the relevant domestic laws and regulations on solid waste management. The import of Scraps is not subject to the management of solid waste, and there is no need to apply for the license of importing solid waste.

2. The above-mentioned goods should go through the import declaration procedures in accordance with the regulations, exempt from submitting import licenses for inspection, and exempt from export restrictions.

3. The above-mentioned goods are exempt from pre-shipment inspection, and the customs shall implement inspection and quarantine in accordance with relevant laws and regulations, and relevant foreign suppliers and domestic consignees are exempt from registration. Domestic consignees or their agents should use "A000000000" (9 zeros), "B000000000" (8 zeros) and "XXXX000004CN" as the foreign supplier registration certificate number and domestic consignee registration certificate number respectively and the pre-shipment inspection certificate number for declaration.

4. Relevant departments in all regions should strengthen coordination and cooperation, supervise and urge shipping companies to further strengthen management, and promote the green development of the industry.
